

The diagram illustrates the dimensions of an A5 Potrait paper. A vertical orange strip on the left represents the gutter, with a dashed line indicating a 15mm butt joint. Red arrows and text specify the overall width as 146mm and the overall height as 210mm. The text also provides the trim size (146mm x 210mm inc Butt) and the tear-out size (131mm x 210mm). A warning at the bottom states that a perforation other than the standard one incurs an additional fee.
